ABOUT

I'm a passionate web developer driven by unique and engaging user experiences and interactions. My work serves as a connective tissue between the creative and developmental teams of a business, providing a richer level of understanding between the two disparate components.

SKILLS

JavaScript

REST / XML / jQuery

Visual Studio Code

CSS3 / SASS / LESS

HTML5 / HTML Canvas

React JS / Redux

Angular JS

Node JS / NPM / Webpack

XCode / Swift / iOS / Watch OS

Adobe Suite (Photoshop, etc.)

EXPERIENCE

SR. PROTOTYPE ENGINEER
March 2018 - Present • BOND *Hollywood, CA*

Architect existing wireframes into robust web applications for the film and video game industries with Angular, Node, version control (Git) and NPM. Inform creative direction on overall site interaction, including input animations and component logic.

SR. PROTOTYPE ENGINEER
March 2016 - February 2018 • Beachbody *Westlake Village, CA*

Transform static designs and assets into rich prototypes for web browsers and iOS platforms by using a wide repertoire of languages such as JavaScript and Swift respectively. Be expected to accommodate quick turn around periods for rapid client exposure.

LEAD WEB DEVELOPER
October 2013 - March 2016 • in Focus Advertising *Agoura Hills, CA*

Take full command of all web-based projects relating to both the front-end and back-end in order to fulfill the needs of a diverse clientele. Deploy a large variety of web applications complete with responsive design and performance parity across all major browsers and OS's.

POST PRODUCTION ARTIST
April 2013 - July 2013 • Graphic Orb *West Hollywood, CA*

Handle a wide range of assets for film and web, such as producing/correctly formatting thumbnails for Netflix, preparing key art and one-sheets for print via Adobe Illustrator, and coding HTML emails to different client specifications. Be expected to turn projects around to clients on a same-day basis.

IT SPECIALIST / LEAD ARTIST
October 2011 - March 2013 • Winnol *Glendale, CA*

Design the user interface and experience for a start-up e-commerce platform. Produce a robust volume of marketing materials spanning print and digital mediums. Assist the IT department with PC and Mac-related issues throughout the office as needed.
